GURUKUL

DISCOVERING
INNER STRENGTH

I love my school,

Whose name is

We study in a train

All classmates are like a chain.

very nice and polite,

Also we students never fight.

In our school we have surprise test,

- ✓ We value creativity, openness and freedom.
- ✓ We help children discover their innate abilities and strengths.
- ✓ We practice the 'freedom with responsibility' for students, teachers and parents.
- ✓ We encourage inclusive education.
- ✓ We have an innovative infrastructure.

GURUKUL

The place, where children, the pristine gift of nature
are groomed to take off to the world.

With their own strengths, integrated values and core competence.

Backed by our passion. Our commitment.

East or west, Gurukul is the BEST.

GURUKUL

GURUKUL

FREEDOM...
INNOVATION...
OPENNESS...
CREATIVITY...

Established in 1992, Gurukul has constantly adhered to these qualities in its teaching, interactions and operations. This is the pioneering day boarding school at Pune, the educational capital of Maharashtra, India.

We believe our teachers are more of facilitators, role models and guides.

Students of varying abilities and challenges are learning here together with a personal focus on individual difficulties and their solutions.

Gurukul is affiliated to CBSE. This curriculum with our child-centric teaching enhances creativity.

Freedom : With responsibility

Modern day parenthood is a challenge. The dual pressures of work and the children's need for quality time and education are daunting and demanding. Gurukul responded to this need, with its Day-boarding School.

With this pattern children get the comprehensive education of a residential school, yet are able to spend quality time at home with parents. It helps a great number of educated women to contribute to the social progress with reduced dual responsibility and conflicts.

Gurukul has an Early Childhood Care and Education program (ECCE) for pre-school children, from 9 a.m. to 5 p.m.

Gurukul offers nutritionally balanced, wholesome, simple vegetarian meals, milk and snacks on time.

Gurukul has 'supervised' home-work hours during the day's schedule in the Primary classes.

This reduces the burden of both - parents and children and allows them to have a quality interactive time at home.

Innovation : The pre-requisite

- ✓ Part of the Gurukul campus is designed as an Indian Railway station. Classes, recreation rooms and even some offices are hosted in real refurbished railway bogies with adjoining platforms. Children are enthralled by this unique ambience and the dynamic feel. They retain the memory of this unparalleled experience all through their future.
- ✓ In certain ways the experiment resembles the scenario of the Tottochan School - the world renowned educational experiment.

Openness : The keyword

- ✓ We openly share our acquired experiences and unique working style with other institutions who are interested in innovative and responsible teaching.
- ✓ Gurukul has an open library.
- ✓ We also have supervised yet open-shelf laboratories.
- ✓ Parent-teacher interactions are also open, though structured.

Creativity : The practice

- ✓ At Gurukul creativity is encouraged through active social interactions, hands-on work experience and collaborative project working.
- ✓ 'In service' programs are conducted for the entire staff; like self-enhancement, out bound training, meditation which enhance their problem solving ability. This enables them to explore creative solutions for various situations.
- ✓ Children can choose their co-curricular activities and sports. Guidance is provided wherever required.
- ✓ Our teaching methods propagate logical thinking, problem solving and creativity in our students.

UNIQUE GURUKUL ADVANTAGES

Gurukul has consistently excelled in its academic results and the children with special needs have also contributed therein. Following advantages back our excellent academic records and results.

A student to teacher ratio of 20 : 1.

For Pre-primary education our eclectic approach extracts the best from Montessori, Froebel and modern day philosophers.

CBSE syllabus is implemented with minimal text books for standards 1 to 7 aided by continuous and comprehensive assessment.

Inclusive education. Almost ten percent students with various challenged abilities are learning together. For this we have special education practices, addressing special needs.

Continuous assessment of facilitators.

A separate time slot for 'Anaapan' meditation for an aware and tranquil mind.

Indian values and life skills education.

Playground with facilities

An infirmary with first aid facilities

Cheerful classrooms

Year 2003-04. Our 10th standard students had the opportunity to meet Hon. President of India, Dr. A.P.J. Kalam at Delhi.

V I S I O N

A community of intergenerational learners that embraces integrity and compassion.
We ignite and empower young minds!
