

The niche

Multiple habitats, One niche

Mother nature has inspired the creation of this multipurpose utility room in more than one ways...

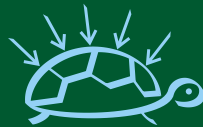

Flexibility, comfort and ease of creation of birds nests prompted its **Design and ease of assembling/dismantling**

The proportionate elegant snail shell inspired its **Lightweight, portable nature**

Hard, tough animal shells conceptualized its **Wind, fire and quake resistance**

Protected openness of a natural cove stimulated its **Relaxing ambience**

A tiger's den influenced the **Privacy**

And ergonomics of a honey comb prompted its **Storage**

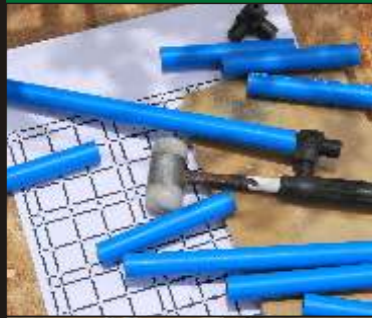

The niche

The multipurpose utility room to suit all your applications

The niche

Multiple habitats, One niche

Its idea is inspired by mother nature. But its creation and application is sure driven by today's complex, multiple and versatile requirements of a secure, inviolable private space on demand.

That too, with an ease of creation, portable nature and temporary yet strong a design.

The Niche handles many such applications with a poise and ease of working.

By definition it is a temporary, nonpermanent structure which may not require much of sanctions, permissions, licences and taxes.

Technical Specifications

Assembling time	: 100 man hrs.
Dismantling time	: 80 man hrs.
False ceiling and paneling	: Thermocole sheets
Lighting	: 2 CFL connections & 2 spare points
Flooring	: Coated laminated plywood
Paneling	: PVC corrugated sheets thickness 2.5 mm
Weight	: 450 kg. approx
Height	: Platform 7" or 9" from ground
Height at top of roofing	: 8' approx + Platform height
Storage	: Multiple racks as per the need
Portability	: In small boxes of 30 - 40 kg. No component exceeds 30" length. Palatable weight.

No debris created while assembling and dismantling
Climate control for processes possible to an extent.

Specifications subject to change due to continuous product development

Areas of use

Noisy work sites

which need a quiet work space / office. (Site offices and accomodation)

Resorts, Camps

which need private spaces where occupants can relax in an ambience.

Expositions & Events

which require private spaces to hold important meetings, discussions and arrive at decisions.

Terraces and gardens

which require added enclosures to add to their comfort.

Process rooms

which require a space with lighting, energy and limited climate control and monitoring. Even storage in such conditions.

Social, Educational activities

which are conducted on changing sites, venues (mobile schools, outbound learning etc)

Optional features & accessories

- Mattresses for beds
- Nets for windows
- Fans
- Solar lighting
- Washrooms, toilets
